

SPONSORSHIP PACKAGE

2022/23

WHAT WE DO

OUR MISSION

Provide students with an opportunity to learn about data science by working together to solve difficult problems with data.

Help students build their skillsets through contributing to impactful projects and entering data science competitions

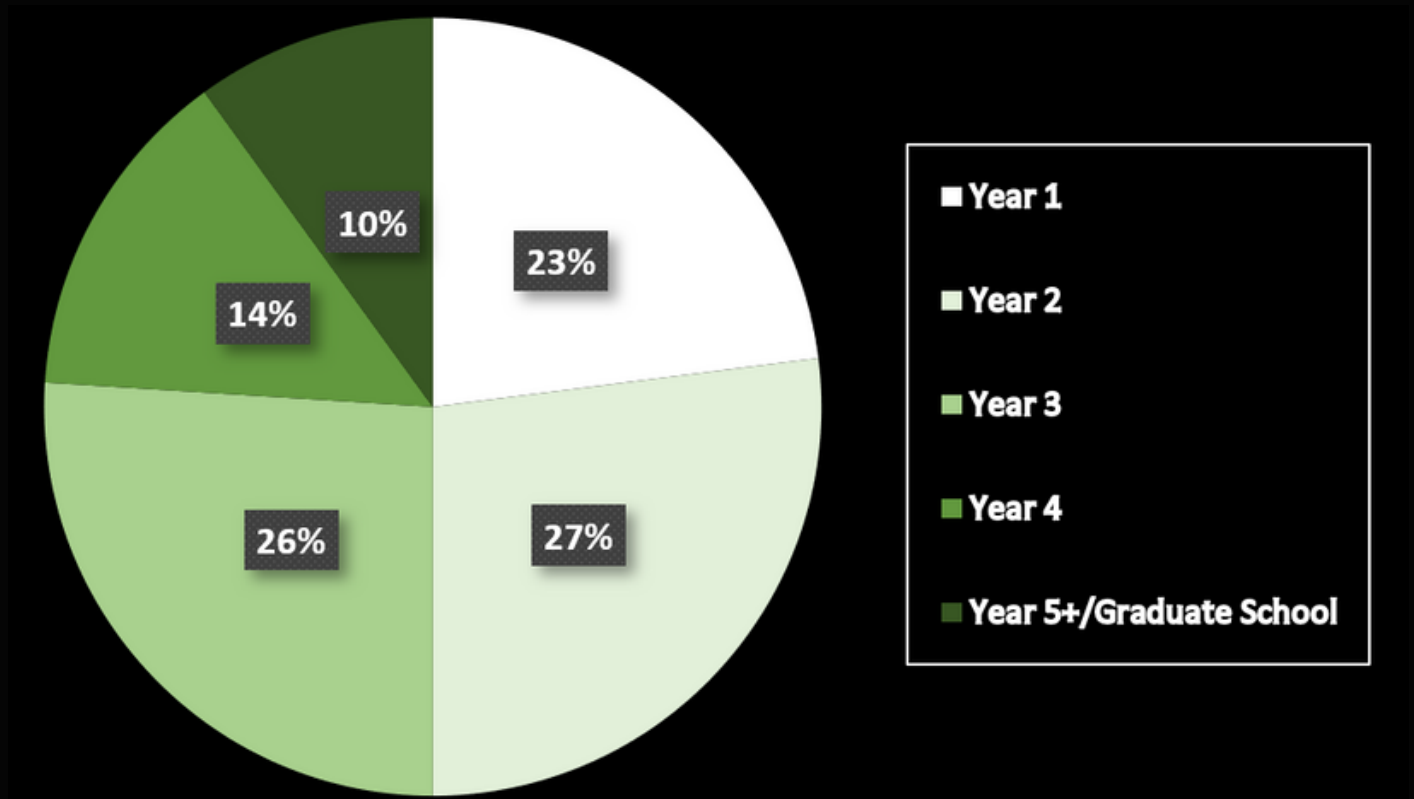

Pair new members with mentors to help students learn and contribute to the projects that interest them

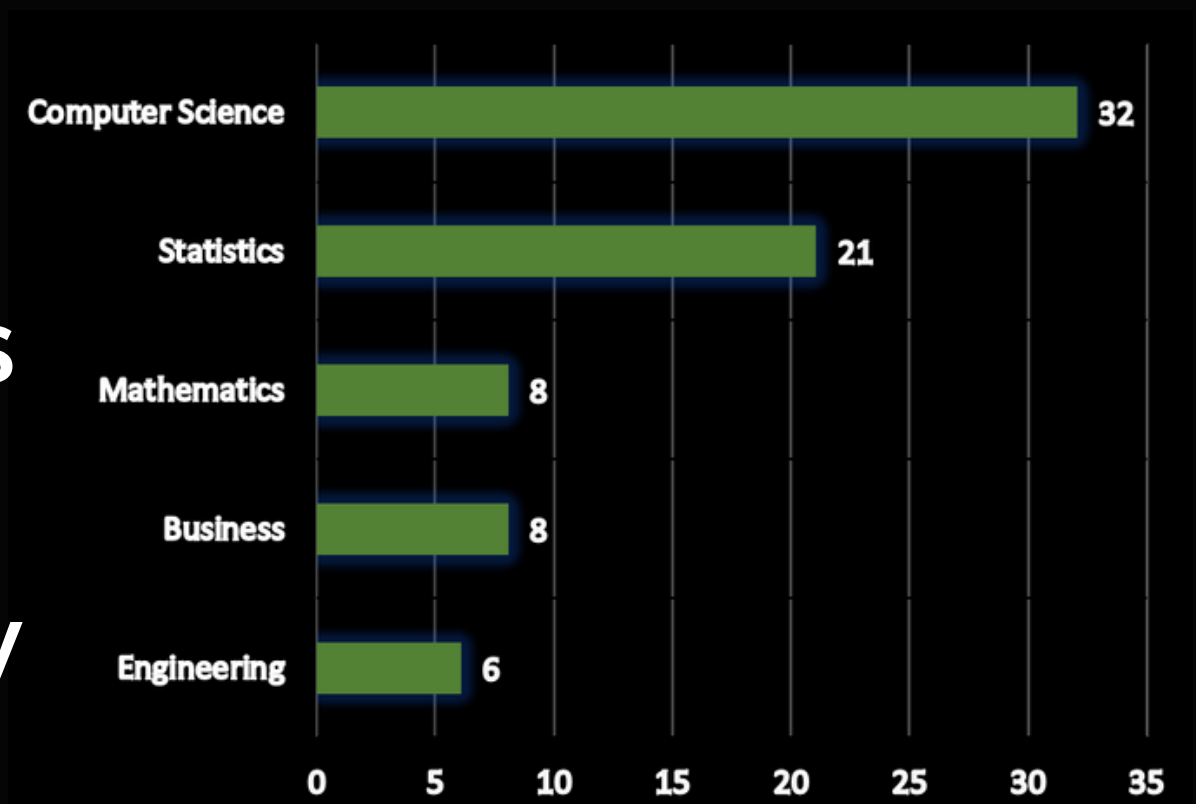

Further promote learning through technical workshops, datathons, panels, and more

OUR MEMBERS

Our Areas of Study
